---

## Summary

---

Full Stack Software Developer with hands-on experience in building responsive web and mobile applications. Proficient in both front-end and back-end development using modern JavaScript frameworks and libraries including React, React Native, Redux, Angular, Vue, Node.js, and Express. Strong collaborator with a problem-solving mindset, committed to delivering efficient, user-friendly, and scalable software solutions. Passionate about creating impactful applications that solve real-world challenges and drive measurable results.

## Experience

---

### Benepass | New York, NY

#### Full Stack Developer | 01/2023 - 08/2025

- Managed source control repositories with Git, including branching strategies, pull requests, and code reviews
- Developed responsive websites based on client requirements, focusing on user experience and accessibility
- Collaborated with cross-functional teams to design and implement front-end web applications using HTML, CSS, JavaScript, React.js, and Redux
- Optimized RESTful APIs for performance by implementing caching techniques like Redis and Memcached
- Designed and implemented reusable components to streamline development processes and promote code reusability
- Provided technical guidance and mentorship to junior developers to improve code quality and maintainability

### Capgemini | Austin, TX

#### Full Stack Developer | 09/2019 - 12/2022

- Designed and developed fullstack applications using AWS services
- Built responsive and user-friendly web interfaces using React.js and Angular
- Developed backend APIs and microservices using Node.js
- Integrated with AWS services such as Lambda, API Gateway, DynamoDB, and S3
- Ensured application performance, scalability, and security
- Collaborated with DevOps for CI/CD pipelines and infrastructure automation

### Degitizing | New York, NY

#### Front End Developer | 05/2017 - 10/2019

- Designed and implemented frontend applications
- Worked on real-time web applications for user communication
- Interacted with backend APIs
- Implemented CI/CD pipelines and version control systems
- Collaborated with a distributed remote team
- Emphasized persistence, ownership, and personal growth in problem-solving tasks

## Skills

---

ReactJS, Angular, VueJS, React Native, NodeJS, EpressJS, Django, MongoDB, PostgreSQL, MySQL, Agile/Scrum, Git, Slack, Jira, CI/CD, Jenkins, AWS, EC2, S3, Docker

## Education

---

### University of Texas at Tyler | Tyler, TX

#### Computer Science | 05/2014

- Bachelor's Degree
- GPA - B+
